*CoQ-10 has been indicated in several studies to provide critical support for the cardiovascular and other systems.*

*Between powdered CoQ-10 and our oil-form CoQ-10, the oil is 273% more absorbable in the body vs. powder.*

*This difference, coupled with the fact that our CoQ-10 oil uses no chemical detergents in processing, makes this CoQ-10 the right choice.*

**Support for:**

- Cardiovascular System • Gastric Health
- Improved Endurance • Accelerated Weight Loss
- Beneficial for Patients on Statin Drugs

**Our CoQ-10 Difference:**

- Rice bran oil-based, not powdered
- Processed naturally, not with chemical detergents

**Contraindications, Adverse or Other**

**Why These Natural Ingredients?**

**Ubiquinone (CoQ-10)**

*"The results of three double-blind, placebo-controlled studies demonstrate the effectiveness of CoQ-10 treatment in heart failure."\**

The undisputable wealth of evidence for CoQ-10 supplementation has been embraced in virtually every corner of the medical and scientific communities. Perhaps named for its vast presence in healthy body function, Ubiquinone (CoQ-10) has impressed researchers for years for its array of contributions to good health. Patients seeking cardiovascular support and a host of immunological needs are candidates for supplementation of CoQ-10 in their daily diet.

**Finding the Right CoQ-10**

The right CoQ-10 is as important as the research itself in gaining effective results for patients. Our CoQ-10 is provided as an oil, setting us apart from the less efficacious powders. Further, our CoQ-10 is processed naturally for maximum potency and efficacy.
