BIO MATRIX M.D.

Why These Natural Ingredients?

EPA and DHA

After a study of Greenland Eskimos, it was discovered that, although they consumed a comparably high amount of fat in their diet, the population experienced a low incidence of coronary heart disease. Their diet, it was discovered, contained a significant proportion of marine fats, specifically long chain, highly unsaturated omega-3 fatty acids (EPA and DHA). A recent review has concluded that omega-3 fatty acids support the cardiovascular system in the following ways:

- Anti-inflammatory properties (partly by prostaglandin effect)
- Formation of and competition against various prostaglandins and leukotrienes
- Inhibition of atherosclerosis
- Hypolipidemic effect on triglycerides and VLDLs
- Antithrombotic effect
- Meets Strict USP Certification

Other important advantages are found in Omega Balance:

1. Burp-Free. Many complain of burping after taking other fish oils. Omega Balance is burp-free for nearly everyone.
2. Our Omega Balance meets the strictest international trade criteria for trace heavy metal including mercury as well as pesticide concentrations.

Supplement Facts

Serving Size 1 Soft Gel Capsule
Servings Per Container:

1 capsule contains	Amount Per Serving	% Daily Value
EPA	420 mg	*
DHA	300 mg	*

* % Daily Value not established

Omega Balance
